(Note this was sent to previous volunteers this morning.)

All:

Thank you for volunteering to judge. Mo and I are currently uploading the videos to YouTube for you to view; they should be ready later today. LATER TODAY, I will then send you five *.pdf files. The first page of the *.pdf will include the submitted poster; the second page will be a link to the unpublished YouTube video of presenter. Mo and I have tested these links in the *.pdf and they should work for all. Please contact me ASAP if they do not work for you.

I have again attached the poster submission guidelines with the rubric for evaluation. Mo has transferred the rubric to a Google Form (<https://docs.google.com/forms/d/1m-qb3bAvHW8aPIPxc9SsljUC1WXDah2vuHlaVljenao/edit?usp=sharing>). You are free to use that form or use paper copies that you print out. Whatever is easiest for you is fine. Honestly, Mo and I just need the total evaluation score for each submission that you have been assigned. **We need the TOTAL SCORE for each submission by 9:00 AM Monday, April 19th** so I have time to compile and record a video for Tuesday's award presentations.

A note about assignments: I tried my best to match your expertise to the posters. However, there were a lot of wood products posters this year, so some of you may get submissions in unfamiliar research areas. Please do your best to evaluate them. For those of you evaluating extension submissions, please view them "with the lens" of a lay person or the general public, as that should be the target audience for those submissions.

Feel free to email Mo or I with questions or concerns. Thanks again for volunteering and look for another email with your assignments later today.

Mike Saunders
Associate Professor of Hardwood Silviculture
Hardwood Tree Improvement and Regeneration Center
Department of Forestry and Natural Resources
Purdue University

Mo Zhou, Ph.D.
Associate Professor of Forest Economics and Management
Department of Forestry and Natural Resources
Purdue University
